Please map the new districts with a mix of the people of the state of Utah for these reasons.

1 It benefits all Utahns to have four Congressmen with a stake in Salt Lake County instead of just one.
2 It benefits all Utahns to have four Congressmen who are advocates for rural Utah, particularly our public lands and natural resources instead of just one.
3 It benefits all Utahns to have four equally competitive Congressional Districts where a good candidate from either party has a chance to win.
4 We will maximize the quality of our candidates from both parties if we make all four districts as equal and as competitive as possible.
5 It is both equitable and wise to establish four, equal 60-40 districts rather than any one district made too heavily Republican or Democrat.
6) We are not interested in electing Congressmen who bring home the bacon for a specific community of interest, Republican or Democrat. We want Congressmen who will fight for a national balanced budget and preservation of American liberty, not pork.
7) The Democrats are going to file suit regardless of which map the Legislature adopts. It is irresponsible for a heavily Republican legislature to cede Democrats advantages that are literally harmful to our country and state and then take a PR whipping anyway.

Attachments: Mime 822

I urge you to vote for the Gerber Citizen Map because it appears to be the most equitable and closer to the redistricting committee's recommendation the legislature appointed and we all paid for.

For a while it seemed that the Legislature was serious about open meetings and listening to constituents but in the end that appears to have been a delusion, since the Senate then drew up the plan first described by Sen. Waddoups and the House in secret drafted their own "60-62% republican in every district," completely ignoring the citizens of Utah yet again. I strongly oppose both of those plans. You spent over a million dollars for advice; you should listen to it.

I agree with the Deseret News editorial a few days ago, gerrymandering may be legal by your own rules, but it is not ethical or moral or even necessary for you to retain a majority. It not only disadvantages the minority party, it also disadvantages the majority by protecting incumbents and protecting favorites. A healthy majority of people in Utah, republicans, democrats, libertarians, and independents wanted an *independent commission* because they did not trust the Legislature to do the right thing. Show us you can rise above partisanship.

Gail Gerlach

As my House Representative- I am urging you to vote yes on the rational Garber Citizen Map for the new redistricting boundaries. It is reasonable and more fair than breaking up our counties too much.

Thanks for your consideration,

Mary Quintana
