

**19-8-114 Additional permits not required.**

- (1) Response action conducted as part of a voluntary cleanup agreement under this chapter does not require a state or local environmental permit, except as required by a program delegated to the state by the federal government under this title.
- (2) The department shall by rule require that the applicant conducting the voluntary cleanup under this chapter comply with any federal or state standard, requirement, criterion, or limitation to which the response action would otherwise be subject if a permit were required.

Enacted by Chapter 247, 1997 General Session
